Project Idea and Selection

- Pulse aims to find nearby pharmacies with specified medicines in stock by employing location-based services and real-time inventory data.
- Addresses the difficulty of discovering necessary medication quickly, resulting in better health outcomes and patient satisfaction.
- Our target audience are healthcare providers and the patients

Problem Statement

Difficulty in identifying nearby pharmacies with specific medicines. Consequences: Delays in treatment, increased health risks, and patient frustration. The statistics shows that about 30% of patients experience delays in accessing prescribed medications.
